CERTIFIED PUBLIC ACCOUNTANTS + ADVISORS

Independent Auditors' Report

Board of Finance Town of North Stonington, Connecticut North Stonington, Connecticut

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of North Stonington, Connecticut as of and for the year ended June 30, 2010, which collectively comprise the Town of North Stonington, Connecticut's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of North Stonington, Connecticut's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in footnote 1, the Town made prior period adjustments to the Net Assets. This decreased Net Assets by \$192,961.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, of the Town of North Stonington, Connecticut as of June 30, 2010, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America (GAAP).

As described in Note 1, the Town has implemented authoritative accounting pronouncements promulgated by the Governmental Accounting Standards Board (GASB) *Statement 51, Accounting and Financial Reporting for Intangible Assets; and, Statement 53, Accounting and Financial Reporting for Derivative Instruments,* as of June 30, 2010.

Independent Auditors' Report (Continued)

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated December 01, 2010 on our consideration of the Town of North Stonington, Connecticut's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and other grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis immediately following this report and budgetary comparison information included in Required Supplementary Information (RSI) are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of North Stonington, Connecticut's basic financial statements. The combining and individual fund financial statements and supplementary schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such combining and individual fund financial statements and supplementary schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly presented in all material respects in relation to the basic financial statements taken as a whole.

December 01, 2010

Marien + Company

Our discussion and analysis of Name of Government's (the Government) financial performance provides an overview of the Government's financial activities for the fiscal year ended June 30, 2010. Please read it in conjunction with the Government's financial statements, which begin with Exhibit 1.

FINANCIAL HIGHLIGHTS

- Total net assets (Exhibit 2) increased by \$433,666 from \$9,842,989 to \$10,276,655
- Total fund balance for the Town increased \$274,673.
- The General Fund budget showed a \$803,952 positive variance.
- The world economy is stabilizing and the jobs and housing markets showed slight increases this year.
- Interest rates are at an all-time low so that the earnings for the Town are down significantly but borrowing rates are also at an all time low. The tax collection rate remained constant and spending by all departments was lower than anticipated.
- Based on current house sales North Stonington residential property has lost approximately 10% of its value since the last revaluation in 2005. The Town is scheduled for a full revaluation next year, Grand List 2011.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities (Exhibits 1 and 2) provide information about the activities of the Government as a whole and present a longer-term view of the Government's finances. Fund financial statements start with Exhibit 3. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Government's operations in more detail than the government-wide statements by providing information about the Government's most significant funds. The remaining statements provide financial information about activities for which the Government acts solely as a trustee or agent for the benefit of those outside of the government.

Reporting the Government as a Whole

Our analysis of the Government as a whole begins with Exhibit 1. One of the most important questions asked about the Government's finances is, "Is the Government as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about the Government as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most

private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Government's *net assets* and changes in them. You can think of the Government's net assets—the difference between assets and liabilities—as one way to measure the Government's financial health, or *financial position*. Over time, *increases or decreases* in the Government's net assets are one indicator of whether its *financial health* is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the Government's property tax base and the condition of the Government's roads, to assess the *overall health* of the Government.

In the Statement of Net Assets and the Statement of Activities, the Government shows the following activity:

Governmental activities—The Government's basic services are reported here, including the
education, public works, and general administration. Property taxes, state and federal
grants and local revenues such as fees and licenses finance most of these activities.

Reporting the Government's Most Significant Funds

Our analysis of the Government's major funds begins in the section titled "The Government's Funds". The fund financial statements begin with Exhibit 3 and provide detailed information about the most significant funds—not the Government as a whole. Some funds are required to be established by State law and by bond covenants. However, the Board of Finance establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money.

Governmental funds—The Government's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Government's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Government's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation at the bottom of the fund financial statements.

The Government as Trustee

The Government is the trustee, or *fiduciary*, for the activity funds at the school. These funds do not belong to the Government. The Government's fiduciary activities are reported in separate Statements of Fiduciary Net Assets in Exhibits 5 and 6. We exclude these activities from the Government's other financial statements because the Government cannot use these assets to

finance its operations. The Government is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

THE GOVERNMENT AS A WHOLE

The Government's *combined* net assets increased by \$433,666 from a year ago—*increasing* from \$9,842,989 to \$10,276,655. Last year net assets *increased* by \$57,986. Our analysis below focuses on the net assets (Table 1) and changes in net assets (Table 2) of the Government.

Table 1
Change in Net Assets (on Exhibit 1)

| | Change Durin | | | | ring Yea | <u>r</u> | |

| Total assets | 14,4 | 47,728 | | 306,624 | 2.1 | 17% | 14,141,104 |
| Long-term debt outstanding | 3,6 | 77,304 | | (144,686) | -3.7 | 79% | 3,821,990 |
| Other liabilities | 4 | 93,769 | | 17,642 | 3.7 | 71% | 476,127 |
| Total liabilities | 4,1 | 71,073 | | (127,044) | -2.9 | 96% | 4,298,117 |
| Net assets: | | | | | | | |
| Invested in capital assets, net of related debt | 5,7 | 88,580 | | 460,123 | 8.6 | 64% | 5,328,457 |
| Restricted - Expendable | | 42,495 | | (288) | -0.6 | 57% | 42,783 |
| Unrestricted | 4,4 | 45,580 | | (26,169) | -0.5 | 59% | 4,471,749 |
| Total net assets | \$ 10,2 | 76,655 | \$ | 433,666 | 4.4 | 41% \$ | 9,842,989 |
| | | | | | | | |

- Capital Assets increased by a net amount of \$460,123. Largely due to the addition of a new fire truck in the amount of \$491,699. The Town also sold the old Engine 1 Fire Truck for \$40,000 which went into the General Fund.
- The Highway Department acquired a new Walking Floor Trailer for the Transfer Station, it was determined that trading in the old trailer was more cost effective than rebuilding it.
- The Town also committed to a second solar panel project at the Old Town Hall, work began on the new roof and chimney repairs and anticipates completing the project on early FY 2011. ARRA Stimulus money has been awarded for \$40,092 toward the project's completion.
- Long Term debt decreased by \$144,686. \$1,090,000 was paid down in bonds and notes. An additional \$740,000 was taken out in the form of a Bond Anticipation Note for the Seaport property, Public Works trucks and the replacement of a Fire Truck.

| Total revenues | 19,023,144 | 607,836 | 3.30% | 18,415,308 | | | | |
| | | | | | | | | |
| Program expenses | | | | | | | | |
| General government | 1,983,575 | 21,205 | 1.08% | 1,962,370 | | | | |
| Public safety | 824,839 | (168,978) | -17.00% | 993,817 | | | | |
| Public works | 1,649,552 | (71,910) | -4.18% | 1,721,462 | | | | |
| Education | 14,057,195 | 451,120 | 3.32% | 13,606,075 | | | | |
| Interest on long-term debt | 74,317 | 719 | 0.98% | 73,598 | | | | |
| Total expenses | 18,589,478 | 232,156 | 1.26% | 18,357,322 | | | | |
| Increase (decrease) in net assets | \$ 433,666 | \$ 375,680 | 647.88% | \$ 57,986 | | | | |

- Capital Grants and contributions increased by \$278,065. Of that \$167,125 is from accounts receivable on the Kingswood Meadow Rd. \$34,500 is accounts receivable on a solar panel grant.
- Operating grants increased by \$145,019 or 3.18%, as there were a few new board of education grants. Some of these grants include an ARRA Title I grant for \$56,393 and an IDEA ARRA grant for \$102,000.
- Property tax collections increased in relation to the mill rate, which went up approx 2% (19.5 to 19.94 mills).
- General Grant and contributions decreased as the casino grant has decreased by \$112,393. The second payment for Local and Vocational Transportation was not sent by the State but funds were used to offset Special Education revenues.
- Public Safety expenses decreased due to the fact that in the prior year the Town purchased an ambulance for the Ambulance Association in the amount of \$152,668.
- Board of Education increased because there was more grant money to spend.
 There is a concern about the next several years of revenue from the State and Federal Governments especially the loss of ARRA Stimulus funding.

Governmental Activities

Table 3 presents the cost of each of the Government's governmental programs as well as each governmental program's net cost (total cost less revenues generated by the activities). The net cost shows the financial burden that was placed on the Government's taxpayers by each of these functions.

Table 3
Governmental Type Activities

| | Total | Co | st | | Net Cost | | | | | |
|--------------------------------|------------------|------|------------|-------------|----------|------------|------|------------|---------|--|
| | of Sei | rvic | es | Incr. of Se | | | rvic | es | Incr. | |

| Governmental Activities | | | | | | | | | | |
| General Government | \$ 1,983,575 | \$ | 1,962,370 | 1.08% | \$ | 1,489,840 | \$ | 1,747,074 | -14.72% | |
| Public Safety | 824,839 | | 993,817 | -17.00% | | 772,072 | | 929,954 | -16.98% | |
| Public Works | 1,649,552 | | 1,721,462 | -4.18% | | 1,328,544 | | 1,408,371 | -5.67% | |
| Education | 14,057,195 | | 13,606,075 | 3.32% | | 9,333,480 | | 9,006,008 | 3.64% | |
| Interest on long-term debt | 74,317 | | 73,598 | 0.98% | | 74,317 | | 73,598 | 0.98% | |
| Totals | \$ 18,589,478 | \$ | 18,357,322 | 1.26% | \$ | 12,998,253 | \$ | 13,165,005 | -1.27% | |

Total Public Works expenses decreased because of the activities focused on the repairs from the March 30th flood. Many of the Public work budget lines were underspent and the Town was forced to downsize the Highway crew by laying off one full time and two part time employees. General Government Net Cost was lower this year due to the reimbursement grants for the Kingswood Meadow and Solar Panel projects.

THE GOVERNMENT'S FUNDS

Fiscal Year 2010 showed a slight decrease in net assets and the fund balance as presented in Exhibits 3 and 4. As of the close of the fiscal year the government reported a combined ending fund balance of \$3,229,974 or an increase of \$274,673 (9.29%). Approximately \$2,862,593 or 88.7% are available for spending as unreserved funds at the Town's discretion.

The Town has committed to a major drainage project in the Kingswood neighborhood of town. The replacement of the Boombridge Road Bridge and the installation of Solar Panels at the Old Town Hall.

General Fund Budgetary Highlights

Over the course of the year, the Board of Finance can revise the Government budget with additional appropriations and budget transfers. Additional appropriates increase the total budget. The Board of Finance is allowed by State Statute to make one additional appropriations up to \$20,000 per line item or department. A second additional appropriation or an appropriation over \$20,000 requires a Town Meeting. Transfers do not increase the total budget, but instead pull appropriations from one department that needs additional funding from other departments that might have excess funding. State Statutes allow these transfers to be made by the Board of Finance without a Town Meeting. Below is a summarized view of the final budget and actual results for the General Fund:

Table 4
General Fund - Budget Summary

| | Final | | |
|-------------------------------------|---------------|---------------|------------|
| Revenues | Budget | Actual | Variance |
| Property Taxes | \$ 12,367,132 | \$ 12,461,260 | \$ 94,128 |
| Use of Town Money | 45,000 | 27,095 | (17,905) |
| Intergovernmental | 4,662,985 | 4,680,658 | 17,673 |
| Licenses, Fees, Fines and Charges | 145,250 | 168,459 | 23,209 |
| Other Revenue | 215,496 | 600,877 | 385,381 |
| Total Revenues | 17,435,863 | 17,938,349 | 502,486 |
| | | | |
| Expenditures | | | |
| General Government | 4,151,557 | 4,008,823 | 142,734 |
| Redemption of Dept | 1,009,375 | 958,327 | 51,048 |
| Capital Outlay | 719,556 | 716,922 | 2,634 |
| Education | 12,081,172 | 11,976,122 | 105,050 |
| Total Expenditures | 17,961,660 | 17,660,194 | 301,466 |
| | | · | |
| Increase (Decrease) in Fund Balance | \$ (525,797) | \$ 278,155 | \$ 803,952 |
| | | | |

There was a substantial increase in the Fund Balance for Fiscal Year 2010. This increase was due, in part, to the return of almost \$250,000 from the Board of Education and General Government operating expenses. The variance was caused by fuel oil that was less expensive than anticipated and several projects in the Public Works Department were put on hold due to the March 30th storm and flood.

Significant variances are summarized as follows:

- Taxes collected were over budget by \$94,128 or .76% from budget estimates, as more prior year taxes were collected than anticipated.
- Uses of Town Money was lower as interest rates were down than anticipated by \$17,905 or 39.8%.
- There was also a loss in conveyance tax collections by the Town Clerk due, in part, to the slow real estate market. Only forty two single family homes were sold and only ten new single family building permits were issued.
- Intergovernmental Revenue was above budget because of increased excess education cost grant \$71,681, but this was offset by the State cutting the transportation grant by about half of the budget (\$57,190).
- Other revenue was over budget because of the bond revenue posted in the General Fund, \$365,000.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of this year, the Government had \$8,758,580 invested government activity capital assets (From Footnotes). This amount represents a net increase (including additions and deductions) of \$110,125 from last year. This is primarily due to the purchase of the fire truck and walking floor trailer. More detailed information about the Government's capital assets is presented in Note 5 to the financial statements.

Debt

At year end, the Government had \$2,970,000 in bonds and notes outstanding. This is a decrease of \$35,000 from last year. The Government's general obligation bond rating continues to carry an A3 rating. More detailed information about the Government's long-term liabilities is presented in Note 7 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The Government's elected and appointed officials considered many factors when setting the fiscal-year 2010 budget and tax rates. The Officials and Department Heads consider cash flow, interest rates for savings as well as borrowing, state grants receipts, poor economic trends and the local, state and federal unemployment rates.

CONTACTING THE GOVERNMENT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the Government's finances and to show the Government's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Board of Finance at Town of North Stonington, 40 Main Street, North Stonington, CT 06359.

Note 1 - Summary of Significant Accounting Policies

A. Reporting entity

The Town of North Stonington, Connecticut (Town) is a municipal corporation governed by a selectmen–town meeting form of government. Under this form of government the town meeting is the legislative body. A town meeting is required to make appropriations, levy taxes and borrow money. The administrative branch is led by an elected three member board of selectmen. The selectmen oversee most of the activities not assigned specifically to another body. An elected board of education oversees the public school system. An elected board of finance is the budget making authority and supervises the town's financial matters.

Accounting principles generally accepted in the United States of America require that the reporting entity include (1) the primary government, (2) organizations for which the primary government is financially accountable and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criterion provided by the Government Accounting Standards Board has been considered, and there are no agencies or entities which should be presented with this government.

B. Government-wide and fund financial statements

The *government-wide financial statements* (Exhibits 1 and 2) report information on all of the non-fiduciary activities of the primary government. Fiduciary funds are excluded from the government-wide financial statements. As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. When an expense is incurred for purposes for which both restricted and unrestricted resources are available, the Town's policy is to use its restricted resources first. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate *fund financial statements* are provided for governmental funds and fiduciary funds (Exhibits 3 through 6). *Governmental activities,* which normally are supported by taxes and intergovernmental revenues, are reported in the governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements. *Fiduciary funds* are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the governments own programs.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Property taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Town.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Capital Nonrecurring Fund is used to accumulate funds for significant purchases.

Additionally, the town reports the following fiduciary fund types:

The *Pension Trust Funds* are used to accumulate resources to be used for retirement benefits.

Agency Funds account for monies held as a custodian for outside groups and agencies.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

D. Assets, liabilities, and net assets

1) Deposits and investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Investments for the Town are generally reported at fair value. Nonparticipating, interest-earning investment contracts are generally reported at cost plus accrued earnings.

Custodial Credit Risk – Custodial credit risk is the risk that, in the event of a bank failure, the Town's deposits may not be returned to it. The Town's policy for custodial credit risk is to invest in obligations allowable under the Connecticut General Statutes. In general for most of the funds, this includes deposits in allowable banks, obligations of the United States of America and obligations of any State or political subdivision, which is tax exempt. Certain Fiduciary Funds are allowed more flexibility in investing.

Credit Risk – Credit risk is the risk that an issuer or other counterparty will not fulfill its specific obligation even without the entity's complete failure. The Town does not have a formal credit risk policy other than restrictions to obligations allowable under the Connecticut General Statutes.

Interest Rate Risk – Interest rate risk is the risk that the government will incur losses in fair value caused by changing interest rates. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from changing interest rates. Generally, the Town does not invest in any long-term investment obligations.

Concentration of Credit Risk – Concentration of credit risk is the risk attributed to the magnitude of a government's investments in a single issuer. The Town follows the limitations specified in the Connecticut General Statutes. Generally, the Town's deposits cannot be 75% or more of the total capital of any one depository.

2) Receivables

Property taxes are assessed on property values as of October 1st. The tax levy is divided into two billings; the following July 1st and January 1st. This is used to finance the fiscal year from the first billing, July 1st, to June 30th of the following year. The billings are considered due on those dates; however, the actual due date is based on a period ending 31 days after the tax bill. On these dates (August 1st and February 1st), the bill becomes delinquent at which time the applicable property is subject to lien, and penalties and interest are assessed.

Under State Statute, the Town has the right to impose a lien on a taxpayer if any personal property tax, other than a motor vehicle tax, due to the Town is not paid within the time limited by any local charter or ordinance. The lien shall be effective for a period of fifteen years from the date of filing unless discharged. A notice of tax lien shall not be effective if filed more than two years from the date of assessment for the taxes claimed to be due.

All trade and property tax receivables are shown net of an allowance for uncollectibles. The allowance is calculated based on prior experience.

3) Activity between funds

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e. the non-current portion of interfund loans).

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in appropriate governmental funds to indicate that they are not available for appropriation and are not expendable financial resources.

4) Inventories and prepaid items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

5) Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than the capitalization threshold for that asset type and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Land is considered inexhaustible and, therefore, not depreciated. Property, plant, and equipment of the Town are depreciated using the straight line method over the following estimated useful lives:

| Assets | Years | Capitalization Threshold |
|----------------------------|-------|-----------------------------|
| H22612 | | |
| Land | N/A | \$0 |
| Buildings and improvements | 75 | \$10,000 |
| Trucks | 20 | \$10,000 |
| Equipment and furniture | 20 | \$2,000 |
| Electronic equipment | 4 | \$2,000 |
| Infrastructure: | | |
| Bridges | 75 | \$50,000 |
| Roads and drainage | 20 | \$10,000 |
| Sidewalks | 50 | \$10,000 |
| Stone bridge/culverts | 50 | \$25,000 |

6) Compensated absences

It is the Town's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is a liability for unpaid accumulated sick leave since the Town has a policy to pay any amounts when employees separate from service with the Town. All vacation and sick pay benefits are accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and/or retirements.

7) Long-term obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8) Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

The Town made a residual equity transfer to close the LOCIP Fund which was used to purchase transfer station scales. The General Fund's Fund Balance was reduced by the deficit Fund Balance in the LOCIP Fund of \$5,209.

The Town also made a prior period adjustment to beginning Net Assets to correct the beginning balance of capital assets and accumulated depreciation. This reduced Net Assets by \$192,961.

In addition to the prior period adjustment noted above the Town made an additional prior period adjustment to the Pension Trust Funds to correct the beginning Net Assets. This increased the Net Assets \$1,074,517.

E. Subsequent Events

Subsequent events have been evaluated through the date of this report, December 01, 2010.

F. Changes in Financial Statements

The Town implemented Governmental Accounting Standards Board (GASB) Statement 51, Accounting and Financial Reporting for Intangible Assets, as of June 30, 2010. This statement establishes accounting and financial reporting requirements for intangible assets (including easements, water rights, timber rights, patents, trademarks, and computer software) to reduce these inconsistencies, thereby enhancing the comparability of the accounting and financial reporting of such assets among state and local governments.

The Town implemented Governmental Accounting Standards Board (GASB) Statement 53, *Accounting and Financial Reporting for Derivative Instruments*, of June 30, 2010. This Statement addresses the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments, if applicable.

Note 2 - Budgeting

A. Budget Basis

A formal, legally approved, annual budget is adopted for the General Fund. This budget is adopted on a basis consistent with Generally Accepted Accounting Principles (modified accrual basis) with the following exceptions:

- Teacher's Retirement The Town does not recognize as income or expenditures
 payments made for the teacher's retirement by the State of Connecticut on the Town's
 behalf in its budget. The Governmental Accounting Standards Board's Statement 24
 requires that the employer government recognize payments for salaries and fringe
 benefits paid on behalf of its employees.
- Encumbrances Unless committed through a formal encumbrance (e.g., purchase orders, signed contracts), all annual appropriations lapse at fiscal year end. Encumbrances outstanding at year end are reported on the budgetary basis statements as expenditures. On the statements prepared under Generally Accepted Accounting Principles, encumbrances outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities.
- Cash Basis The modified accrual basis requires current costs to be included in
 expenditures in the year in which they were incurred. The Town uses the cash basis for
 certain expenditures. The cash basis records current costs in expenditures in the year in
 which they were paid. The general government payroll and the Board of Education
 pension contribution are both recorded on a cash basis.
- Debt Revenue and Expenditures The modified accrual basis of accounting includes revenue for new long-term debt or capital leases. The modified accrual basis shows expenditure for the payment of the debt paid off with the new debt or for the piece of equipment purchased in a capital lease. The town nets these revenues and expenditures in the budget.

B. Budget Calendar

The Boards of Selectmen and Education submit requests for appropriation(s) to the Board of Finance. The budget is prepared by fund, function and activity, and includes information on the past year, current year estimates and requested appropriations of the next fiscal year.

The Board of Finance holds a public hearing, at which itemized estimates of the expenditures of the Town for the next fiscal year are presented. At this time, individuals are able to recommend any appropriations, which they desire the Board of Finance to consider. The Board of Finance then considers the estimates and any other matters brought to their attention at a public meeting held subsequent to the public hearing and prior to the annual meeting. The Board of Finance prepares the proposed budget.

The Board of Finance's estimated and recommended budget reports are submitted at the Annual Town Meeting. The Annual Town Meeting takes action on this budget. After the Annual Town Meeting, the Board of Finance meets to levy a tax on the grand list which will be sufficient to cover, together with other income or revenue surplus which is appropriated, the amounts appropriated and any revenue deficit of the Town.

C. Budget Control

The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level except expenditures for education, which are, by State Statutes, appropriated as one department.

The governing body may amend the annual budget subject to the requirements of the Connecticut General Statutes. The Board of Finance may make a one time additional appropriation up to \$20,000 to any appropriations. A Town meeting must be called to make appropriations over \$20,000 or additional changes to a previously adjusted appropriation. During the year \$535,822 of additional appropriations were made.

Note 3 – Deposits and Investments

A. Cash and Cash Equivalents

The following is a summary of cash and cash equivalents at year end:

| Governmental Funds | \$ 3,254,799 |
|---------------------------------|-----------------|
| Pension Trust Funds | 547,260 |
| Agency Funds | 295,044 |
| Total Cash and Cash Equivalents | \$ 4,097,103 |

B. Custodial Credit Risk on Deposits

As of June 30, 2010, the carrying amount of the Town's deposits with financial institutions was:

| Deposits | \$ 4,485,188 |
|---|-----------------|
| Plus: Pooled Investment Funds | 33,975 |
| Less: Certificates of Deposits treated as investments | (422,060) |
| Total Cash and Cash Equivalents | \$ 4,097,103 |

The bank balance of the deposits of \$4,343,482 was exposed to custodial credit risk as follows:

| Covered by Federal Depository Insurance | \$ 3,352,125 |
|---|-----------------|
| Uninsured and uncollateralized | 991,357 |
| Total Deposits | \$ 4,343,482 |

C. External Investment Pools Treated as Cash and Cash Equivalents

The pooled investment funds' risk category cannot be determined since the Town does not own identifiable securities but invests as a shareholder of the investment pool. The pool, Short-Term Investment Fund (STIF), is a money market investment pool managed by the Cash Management Division of the State Treasurer's Office created by Section 3-27 of the Connecticut General Statutes (CGS). Pursuant to CGS 3-27a through 3-27f, the State, municipal entities, and political subdivisions of the State are eligible to invest in the fund. The fund is considered a "2a7-like" pool and, as such, reports its investments at amortized cost (which approximates fair value). A 2a7-like pool is not necessarily registered with the Security and Exchange Commission (SEC) as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's rule 2a7 of the Investment Company Act of 1940 that allows money market mutual funds to use the amortized cost to report net assets. The pool is rated AAAm by Standard & Poor. This is the highest rating for money market funds and investment pools.

D. Investments

At June 30, 2010, the Town's investments consisted of the following:

| | | Other | Pension | |
|-------------------------|------------|--------------|--------------|------------|
| | General | Governmental | Trust | Agency |
| | Fund | Funds | Funds | Funds |
| Annuity Contracts | - | - | \$ 146,962 | \$ - |
| Equity Mutual Funds | - | - | 1,673,791 | - |
| Fixed Income | - | - | 17,954 | - |
| Certificates of Deposit | 250,819 | 19,424 | - | 151,817 |
| | \$ 250,819 | \$ 19,424 | \$ 1,838,707 | \$ 151,817 |

E. Credit Risk and Interest Rate Risk of Investments

As of June 30, 2010 the range of maturities of the investments was as follows:

| | Avg. | | Investment Maturity | | | | | |
|-------------------------|--------|-----------------|---------------------|----|----------|----|--------|--|
| | Credit | Fair | | L | ess than | | 1 to 5 | |
| Type of Investment | Rating | Value | N/A | | 1 Year | | Years | |
| Annuity Contracts | ** | \$ 146,962 | \$ 146,962 | \$ | - | \$ | - | |
| Equity Mutual Funds | NA | 1,673,791 | 1,673,791 | | - | | - | |
| Fixed Income | NA | 17,954 | - | | 17,954 | | - | |
| Certificates of Deposit | * | 422,060 | - | | 402,636 | | 19,424 | |
| | _ | \$ 2,260,767 | \$1,820,753 | \$ | 420,590 | \$ | 19,424 | |
| | _ | | | | | | | |

- * Certificates of Deposit The Town invests in nonparticipating interest-earning investment contracts in the form of certificates of deposit. These do not capture the market (interest rate) changes though the investment's negotiability or transferability, or redemption terms that consider market rates. This exposes the Town to interest rate risks.
- ** Annuity Contracts The Town invests in annuity contracts. These are considered to be quaranteed investment contracts (GICs). They are general obligation instruments issued by an insurance company over a specified period. They are uncollateralized and unsecured annuities held in annuity trust funds of various insurance companies.

Note 4 - Receivables

Receivables as of year end for the Town's individual major funds and nonmajor and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

| | | | | Capital | | Other | | |
|---|------|----------|----|------------|-----|------------|-------|--------|
| | (| General | No | nrecurring | Go۱ | /ernmental | Fidu | ıciary |
| | | Fund | | Fund | | Funds | Fι | ınds |
| Taxes * | \$ | 437,683 | \$ | - | \$ | - | \$ | - |
| Interest and fees on back receivables * | | 120,839 | | - | | - | | - |
| Long-term school construction grant * | 1 | ,311,747 | | - | | - | | - |
| Intergovernmental | | 91,961 | | 201,625 | | 14,782 | 82 | 2,759 |
| Other | | 15,701 | | - | | - | | - |
| Gross receivables | 1 | ,977,931 | | 201,625 | | 14,782 | 82 | 2,759 |
| Less: allowance for uncollectibles | | (84,066) | | - | | - | | - |
| Net total receivables | \$ 1 | ,893,865 | \$ | 201,625 | \$ | 14,782 | \$ 82 | 2,759 |

^{*} Not expected to be collected with in one year

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

| | Jnavailable | Unearned |
|--|-----------------|--------------|
| Delinquent net property taxes, interest and liens receivable | \$ 387,770 | \$ - |
| Reimbursements on school bond payments | 1,311,747 | - |
| Grants that were not received in 60 days | 293,586 | - |
| Grants that are not earned yet | - | 92,414 |
| Total deferred/unearned revenue for governmental funds | \$ 1,993,103 | \$ 92,414 |

Note 5 - Capital Assets

Depreciation expense was charged to functions/programs of the primary government as follows:

| General government | \$ 28,485 |
|----------------------------|---------------|
| Public works | 164,222 |
| Public safety | 35,632 |
| Education | 261,571 |
| Total depreciation expense | \$ 489,910 |

Capital asset activity for the year was as follows:

| | Beginning Balance Increases Decreases | | | | |)ocroscos | Ending Balance | | |
|---------------------------------------|---------------------------------------|-------------------|---------|-----------|-----------|-----------|-------------------|------------|--|
| Capital assets not being depreciated: | | Dalance Increase. | | icreases | Decidases | | Dalarice | | |
| Land | \$ | 953,240 | \$ | - | \$ | - | \$ | 953,240 | |
| Capital assets being depreciated: | | | | | | | | | |
| Buildings and Improvements | 1 | 2,510,992 | | 4,500 | | - | 1 | 2,515,492 | |
| Furniture and Equipment | 5,531,647 | | | 604,721 | (203,056) | | | 5,933,312 | |
| Infrastructure | 204,943 | | 204,943 | | - | | - | 204,943 | |
| | 1 | 8,247,582 | | 609,221 | | (203,056) | 1 | 8,653,747 | |
| Accumulated depreciation: | (1 | 0,552,367) | (| (489,910) | | 193,870 | (1 | 0,848,407) | |
| | | | | | | | | | |
| Capital assets, net | \$ | 8,648,455 | \$ | 119,311 | \$ | (9,186) | \$ | 8,758,580 | |

Note 6 - Interfund Activities

A. Interfund transfers:

Interfund transfers are generally used to transfer monies raised in taxes to other funds. During the year the monies were transferred from the general fund to the capital nonrecurring fund to help finance several projects:

| | Iransfers in to: | | | | | | |
|-------------------|----------------------|----|---------|----|---------|--|--|
| | General Capital Non- | | | | | | |
| | Fund recurring Fund | | | | Total | | |
| Transfers out of: | | | | | | | |
| General Fund | \$ - | \$ | 784,191 | \$ | 784,191 | | |

B. Advance to/from other funds

There are no long-term loan agreements on the interfund balances.

C. Due to/from other funds

The following are temporary borrowings between funds. These are either expected to be paid off within one year or have no agreed payment terms:

| Receivable Fund | Payable Fund | Amount |
|--|--------------------------------|---------------|
| Special Revenue - Special Education Grants | General Fund | \$ 90,414 |
| Capital Projects - Capital Nonrecurring | General Fund | 480,057 |
| General Fund | Agency Fund - Student Activity | 13,803 |
| Special Revenue - Scholarships | Agency Fund - Student Activity | 15,516 |
| | | \$ 599,790 |

Note 7 – Long-Term

A. Changes in long-term liabilities

Long-term debt activity for the year ended June 30, 2010, was as follows:

| | Opening | | | | Ending | D | ue Within |
|-------------------------------|-----------------|-----------------|----|-------------|-----------------|----|-----------|
| | Balance | Additions | F | Reductions | Balance | | One Year |
| General Obligation Bonds: | | | | | | | |
| School Construction | \$ 2,820,000 | \$ - | \$ | (590,000) | \$ 2,230,000 | \$ | 575,000 |
| Bond Anticipation Note | - | 740,000 | | - | 740,000 | | 740,000 |
| Bond Anticipation Note | 500,000 | - | | (500,000) | - | | - |
| Compensated Absences | 133,990 | 15,314 | | - | 149,304 | | 86,811 |
| Post Closure Landfill Costs | 96,000 | - | | (6,000) | 90,000 | | 6,000 |
| Net OPEB Obligation (Note 12) | 272,000 | 385,000 | | (189,000) | 468,000 | | - |
| | \$ 3,821,990 | \$ 1,140,314 | \$ | (1,285,000) | \$ 3,677,304 | \$ | 1,407,811 |
| | | | | | | | |
| Bond Issue Costs (Asset) | \$ (16,789) | \$ - | \$ | 3,498 | \$ (13,291) | \$ | (3,498) |

B. General Obligation Bonds

The Town issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the Town. These bonds generally are issued as 20 year serial bonds with principal maturing each year. Payments on these bonds have been made out of the General Fund and are all charged to expenditures.

The Town issued a bond anticipation note in the amount of \$740,000 with an interest rate of 2.43%. The full amount of the bond will be due September 10, 2010 together with interest in the amount of \$17,982. Of the total amount, \$375,000 was used to refinance the Hewitt Property bond anticipation note from the previous year. The remaining \$365,000 was used to purchase a fire truck. Of the total amount, \$490,000 will be refinanced at that time with a new bond anticipation note (See Note 13 – Subsequent Events). Therefore, this has been treated as long-term debt in these financial statements.

General obligation bonds currently outstanding are as follows:

| | Original | Matures in | | |
|----------------------------------|-----------------|-------------|----------------|-----------------|
| Purpose | Amount | Year Ending | Interest Rates | Amount |
| School Construction | \$ 7,025,000 | 2014 | 2.00%-5.00% | \$ 2,230,000 |
| Hewitt Property / Truck Purchase | \$ 740,000 | 2011 | 2.43% | \$ 740,000 |

Annual debt service requirements to maturity for general obligation bonds are as shown in the following schedule.

| | Governmental Activities | | | | | | | |
|---------------------|-------------------------|-----------|----------|---------|--|--|--|--|
| Year Ending June 30 | | Principal | Interest | | | | | |
| 2011 | \$ | 1,315,000 | \$ | 109,707 | | | | |
| 2012 | | 565,000 | | 71,600 | | | | |
| 2013 | | 550,000 | | 49,000 | | | | |
| 2014 | | 540,000 | | 27,000 | | | | |
| Total | \$ | 2,970,000 | \$ | 257,307 | | | | |

C. Post Closure Landfill Costs

The Town has a closed landfill with no further capacity or estimated useful life. State and federal laws and regulations require that the Town perform certain maintenance and monitoring functions on its closed landfill site for thirty years after closure. These costs will be paid through the General Fund each year as part of the annual budget. Total estimated costs based on the current actual costs are included in the General Long-Term Debt Account Group. The actual costs may vary based on actual events, inflation, changes in technology and applicable laws and regulations. During the year there were \$3,000 in actual costs incurred.

D. Debt Limitations Under Connecticut State Statutes

Connecticut General Statutes Section 7-374 sets limits on the debt, as defined by the statutes, which can be incurred by the Town and other governmental agencies within the Town. The limitations for the Town of North Stonington, Connecticut are as follows:

| Total tax collections (including interest and lien fees) for the year Reimbursements for revenue loss on tax relief for the elderly (C.G.S. 12-129d) | | | | | | | | | \$ 12,543,773 33,918 |
|---|----|--------------------|-----|----------------|-----|---------------|----|------------------|----------------------------|
| Debt limitation base | | | | | | | | | \$ 12,577,691 |
| | | General Purpose | | Schools | | Sewers | | Urban Renewal | Pension Deficit |
| Debt limitation: | | • | | | | | | | |
| 2 1/4 times base | \$ | 28,299,805 | \$ | - | \$ | - | \$ | - | \$ - |
| 4 1/2 times base | | - | | 56,599,610 | | - | | - | - |
| 3 3/4 times base | | - | | - | | 47,166,341 | | - | - |
| 3 1/4 times base | | - | | - | | - | | 40,877,496 | - |
| 3 times base | | - | | - | | - | | - | 37,733,073 |
| Total debt limitation | | 28,299,805 | | 56,599,610 | | 47,166,341 | | 40,877,496 | 37,733,073 |
| Indebtedness: | | | | | | | | | |
| Bonds and notes payable | | 740,000 | | 2,230,000 | | - | | - | - |
| Amount to be provided by CT | | - | | (1,311,747) | | - | | - | - |
| Total indebtedness | | 740,000 | | 918,253 | | - | | - | _ |
| Debt limitation in excess of debt outstanding and authorized | \$ | 27,559,805 | \$ | 55,681,357 | \$ | 47,166,341 | \$ | 40,877,496 | \$ 37,733,073 |
| In no case shall total indebtedness | ex | ceed seven ti | mes | s annual recei | pts | from taxation | 1 | | \$ 88,043,837 |

E. Refinancing of Bonds

On August 15, 2002 the Town issued \$7,025,000 in General Obligation Bonds with variable interest rates from 2.0% to 5.0% to advance refund \$6,420,000 of outstanding bonds with average interest rates from 5.3% to 6.5% percent. The net proceeds were used to establish an irrevocable escrow agreement with the escrow agent whereby the Town has deposited monies with the escrow agent to purchase a portfolio of non-callable direct obligations of, or guaranteed by, the United States of America. The principal and interest of this portfolio will provide amounts sufficient to meet principal and interest payments on the old debt when due. As a result, the old bonds are considered to be defeased and the liability for those bonds has been removed from the long-term debt. The balance of the in-substance defeased debt which remains outstanding at June 30th is \$2,140,000.

Note 8 – Equity

A. Reserved Fund Balances

Fund Balances are reported in the Fund Financial Statements. Reserved Fund Balances represent those portions of the fund equity not available for appropriation for expenditures or legally segregated for a specific future use. At June 30, 2010 this consisted of:

| | General | Other |
|--------------|---------------|--------------|
| | Fund | Funds |
| Encumbrances | \$ 324,886 | \$ - |
| Town clerk | 27,666 | - |
| Inventory | - | 3,660 |
| Open space | - | 11,169 |
| | \$ 352,552 | \$ 14,829 |

B. Designated Fund Balances

Designated Fund Balances represent those portions of fund balance in the fund financial statements for which the Town has tentative plans for future uses of these financial resources. The Capital Nonrecurring Fund has \$1,256,108 designated for specific projects.

C. Restricted Net Assets

Restricted Net Assets are reported when constraints placed on net assets are either (1) externally imposed by creditors, grantors, contributors, or laws and regulations of other governments, or (2) imposed by law through constitutional provisions or enabling legislation of the Town. At year end there was \$42,495 of fees restricted for specific purposes included in expendable Net Assets.

Note 9 - Employee Retirement Systems and Pension Plans

The Town maintains four defined contribution plans (sections A through D). The plans described below in sections A, B and C and the residual balance in the plan shown in section D below are required to be reported as pension trust funds on the financial statements. The pension funds can be changed based on a change in Town policy and the agreement of the collective bargaining units. Section E is a state funded defined benefit plan for the certified education personnel.

A. North Stonington Volunteer Fire Department

Eligibility to participate in the plan is based upon minimum age and months of service requirements. Participants are fully vested in year five of participation and are unvested prior to that time. Retirement benefits are paid following the participants' attainment of age 65 and completion of five years of participation.

Under the plan agreement, there is no funding obligation for either the Town or the plan participants. The Town reserves the right to make any amendments to the plan and may terminate the plan at any time. For the year ended June 30, 2010 the Town contributed \$20,380 to the plan. The plan is administered by Volunteer Firemen's Services, Inc.

B. North Stonington Volunteer Ambulance Association

Eligibility to participate in the plan is based upon minimum age and months of service requirements. Participants are fully vested in year five of participation and are unvested prior to that time. Retirement benefits are paid following the participants' attainment of age 65 and completion of five years of participation.

Under the plan agreement, there is no funding obligation for either the Town or the plan participants. The Town reserves the right to make any amendments to the plan and may terminate the plan at any time. For the year ended June 30, 2010 the Town contributed \$2,879 to the plan. The plan is administered by Volunteer Firemen's Services, Inc.

C. Board of Education Pension Plans

- **A. Plan #2119 -** Eligibility in the plan is limited to secretaries, custodians, and the cafeteria administrator all of whom must have completed one-half year of service and have attained the age of twenty and one-half. Participants may contribute voluntarily to the plan. The Town annually contributes an amount equal to 10% of each participant's compensation. Participants are fully vested immediately upon participation in the plan. For the year ended June 30, 2010 the Town contributed \$25,842 to the plan. The plan is administered by National Retirement Services, Inc. The plans provisions have been negotiated with the respective collective bargaining units.
- **B. Plan #30027** Eligibility in the Board of Education CNBU Money Purchase plan is limited, with the exception of 2 named employees, to those employees of the board of education who are not participants in the Board of Education Pension Plan (Note 9C above). All participants must have completed six months of service and must have attained age twenty and one-half. Participants may contribute voluntarily to the plan. The Town annually contributes 14% of each participant's compensation. Participants are fully vested immediately upon participation in the plan. For the year ended June 30, 2010 the Town contributed \$56,917 to the plan. The plan is administered by National Retirement Services, Inc. The plans provisions have been negotiated with the respective collective bargaining units.

D. General Government Pension Plan

Eligibility in the plan is limited to the Town Clerk, Tax Collector, members of the United Steelworkers of America (USWA), Municipal Employees Union Independent (MEUI), and Salaried Employees of North America (a division of the USWA) who have completed one year of service. Participants may voluntarily contribute to the plan. The Town's funding policy is as follows:

Municipal Employee Union Independent
United Steelworkers of America
All Other Participants employed before 12/01/96
All Other Participants employed on or after 12/01/96

For the year ended June 30, 2010 the Town contributed \$84,277 to the plan all of which is allocated to the participants' individual retirement. The plan is administered by the Town.

E. Teachers' Retirement System

Teachers and certain other certified personnel in the Town are eligible to participate in the State of Connecticut Teachers' Retirement System, a multiple employer public employees retirement system described in the Connecticut General Statutes, Chapter 167a. The system has been established to provide retirement and other benefits for teachers, their survivors and beneficiaries. A member is eligible to receive a normal retirement benefit who (1) has reached the age of sixty and has accumulated twenty years of credited service in the public schools of Connecticut or (2) has attained any age and has accumulated thirty-five years of credited service, at least twenty-five years of which are service in the public schools of Connecticut. The financial report may be obtained through the State Teacher's Retirement Board.

The normal retirement benefit is two percent times the number of years of credited service multiplied by their average annual salary received during the three years of highest salary. In no event will such benefit exceed seventy-five percent of the average annual salary, or be less than \$3,600. Benefits are fully vested after ten years of service.

The funding of the system is provided by required member contributions (7 percent of their annual salary) and by amounts appropriated by the State of Connecticut General Assembly. For the year ended June 30, 2010, the State contributed \$900,351 into the pension plan on behalf of the Town of North Stonington, Connecticut. This was recorded on the GAAP statements as revenue and expenditures in the General Fund. The Town's total payroll for all employees for the fiscal year ending June 30, 2010 was \$8,238,141 of which \$5,821,267 was covered under this pension plan.

Note 10 - Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the Town carries commercial insurance. There have been no significant reductions in insurance coverage.

Settlement amounts have not exceeded insurance coverage for the current year or three prior years.

The Town currently is a member of the Connecticut Interlocal Risk Management Agency (CIRMA), a public entity risk pool established under the provisions of Connecticut General Statutes section 7-479a et. seq. for some of its insurance. The Town is liable only for contributions to the pool. Members do not retain the risk of loss, as they have transferred the risk by purchasing coverage with no deductible retention. A separate agreement states limits on the member's obligation to pay indemnification obligations and expenses should CIRMA be unable to do so.

Note 11 - Contingent Liabilities and Committments

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The following grants may be contingent liabilities:

- 1. **FEMA Grant** The Town has committed to fix storm drainage issues caused by flooding during the fiscal year. As of the end of the year the Town is anticipating the project to cost approximately \$2,200,000. Of this the Town is expecting grants to cover approximately 75% of the projects cost. As of June 30, 2010 the Town had spent \$86,932 on repairs. This resulted in accounts receivable and deferred revenue in the general fund in the amount of \$65,199.
- 2. Solar Panel Grant The Town was approved for a \$50,000 grant for new solar panels. The grant has been contested by an outside organization. There is a possibility that the grant will not be paid due to this questioning. As of June 30, 2010 the Town had spent \$34,500 on the project. At year end there are accounts receivable and deferred revenue of \$34,500 for this grant in the capital nonrecurring fund. The Town is currently working with the grantor to determine its eligibility.

The Town is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Town's counsel the resolution of these matters will not have a material adverse effect on the financial condition of the Town.

Note 12 – Other Post Employment Benefits (OPEB)

A. Plan Description

The North Stonington Public Schools Other Post Employment Benefit Program is a single-employer defined benefit plan administered by the Town of North Stonington, Connecticut in accordance with various collective bargaining agreements. The plan does not issue a separate financial statement.

Eligibility Teachers and Administrators - A Teacher or Administrator

retiring under the Connecticut State Teachers Retirement System shall be eligible to receive health benefits for self and spouse.

Normal Retirement for Teachers and Administrators is the earlier of age 60 with 20 years of service, or completion of 35 years of service regardless of age. Early retirement is the earlier of age 60 with 10 years of service, any age with 25 years of service, or

age 55 with 20 years of service.

Secretaries and Non Union - A member retiring with age 55 years or older shall be eligible to continue health insurance

coverage for self and spouse. Coverage is pre-65 only.

Cost Sharing All retirees pay 100% of the premiums

Life Insurance Administrators - \$50,000 from retirement until age 65 at Board's

expense provided member worked at least 7 years for the Board

of Education as an administrator.

B. Actuarial Assumptions and Methods

Latest Actuarial Date July 1, 2009

Actuarial Cost Method Projected Unit Credit

Discount Rate 4.00% Payroll Growth Rate 4.50%

Medical Inflation Initial rate of 6.6% grading down to an ultimate inflation rate

of 4.4% over a 51 year period.

Amortization Method Level percentage of projected payroll

Remaining amortization 28 years, closed

Healthy Mortality Teachers and Administrators – RP-2000 projected forward 19

years using scale AA, with a two year set back

All others – RP-2000 projected to the valuation year plus 10 years for males and females and separate tables for active

employees and annuitants

Disabled Mortality Teachers and Administrators – RP-2000 projected forward 19

years using scale AA, with an eight year age set forward for

males and females

All others – RP-2000 projected to the valuation year plus 10 years for males and females and separate tables for active

employees and annuitants

Turnover Teachers and Administrators – rates based on gender and

length of service for the first ten years and gender and age

thereafter.

All others – rates based on age.

Retirement Teachers and Administrators – rates based on age, eligibility

for pension benefits, and gender

All others – 5% at age 55 with 10 years of service as a base

and increasing from there.

Disability Teachers and Administrators – rates based on age and gender

All Others – rates are in accordance with the 1985 Pension

Disability Table (DP-85 Table), Class 1.

Future Retiree Coverage Teachers and Administrators – 95% are assumed to elect

coverage at retirement

All Others – 10% are assumed to elect coverage at retirement Male 50%; Female 30% with female spouses assumed to be

Future Dependent

Coverage

Future Post-65 Coverage

3 years younger than males.

Teachers and Administrators – All Medicare eligible actives

and pre-65 retirees are assumed to enroll in retiree health coverage through the Connecticut State Teachers Retirement System at age 65. 75% of Non-Medicare eligible members are assumed to continue health coverage through the Board.

All Others – N/A

C. Schedule of Funding Progress

There is no requirement for funding and the plan has not been funded. The Town has not yet established a formal funding plan or a trust at this time.

Below is a schedule of funding progress. (Data in the table below is only presented since the year of transition.)

| | Actuarial | Act | uarial | Actuarial | | Unfunded | Funded | Covered | UAL as a % |
|---|-----------|-----|---------|-----------------|----|-----------------|--------|---------|-------------------|

D. Schedule of Employer Contributions

The schedule of employer contributions is as follows. (Data in the table below is only presented since the year of transition):

| | Annual | | Actual | | |
|------------|---------------|----|--------------|-------------|---|
| Year Ended | Required | Co | ontributions | Percentage | |
| June 30 | Contributions | | Made | Contributed | _ |
| 2010 | \$385,000 | \$ | 189,000 | 49.09% | _ |
| 2009 | \$273,000 | \$ | 137,000 | 50.18% | |
| 2008 | \$273,000 | \$ | 137,000 | 50.18% | |

E. Annual Required Contribution (ARC)

The Annual Required Contribution (ARC) for the OPEB program consists of two pieces:

Past Service Cost (a catch-up accrual to amortize the Unfunded Accrued Liability). The amortization period is 30 years starting on July 1, 2007. The ARC is assumed to be paid at the beginning of the fiscal year. Interest is also calculated on the Unfunded Accrued Liability and added to the Annual Required Contribution.

Normal Cost is the present value of the portion of the projected benefit attributable to the current year (the cost of benefits earned each year should be accrued in that year).

The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortized any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

The annual calculation of Annual Pension Cost (APC) and Net Pension Obligation (NPO) is as follows. (Data in the table below is only presented since the year of transition):

| Past Service Cost | \$ 194,000 |
|------------------------------------|---------------|
| Normal Cost | 177,000 |
| Interest | 14,000 |
| Annual Required Contribution (ARC) | 385,000 |
| Expected Benefit Payouts | (189,000) |
| Increase in Net OPEB Obligation | \$ 196,000 |

F. Annual OPEB Cost and Net OPEB Obligation

The following table shows the components of the annual OPEB cost for the year, the amount actually contributed to the plan, and the changes in the Town's net OPEB obligation (asset):

| Annual required contribution (ARC) | \$ 385,000 |
|--|---------------|
| Interest on net OPEB obligation | - |
| Adjustment to annual required contribution | - |
| Annual OPEB cost | 385,000 |
| Contributions made | (189,000) |
| Increase (decrease) in net OPEB obligation | 196,000 |
| Net OPEB obligation (asset), beginning of year | 272,000 |
| Net OPEB obligation (asset), end of year | \$ 468,000 |

The Net OPEB Obligation history is as follows. (Data in the table below is only presented since the year of transition):

| Fiscal | Annual | | Actual | Percentage | Ne | et Pension |
|-----------|---------------|----|------------|-------------|----|------------|
| Year | OPEB | Co | ntribution | of APC | С | bligation |
| Ended | Cost | | Made | Contributed | | (Asset) |
| 6/30/2010 | \$ 385,000 | \$ | 189,000 | 0.0% | \$ | 468,000 |
| 6/30/2009 | \$ 273,000 | \$ | 137,000 | 0.0% | \$ | 272,000 |
| 6/30/2008 | \$ 273,000 | \$ | 137,000 | 0.0% | \$ | 136,000 |

G. Other Disclosures

The calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of sharing costs between the employer and plan members to that point. The actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

Note 13 – Subsequent Events

The Town refinanced the \$740,000 bond anticipation note outstanding at the end of the year. They paid \$250,000 in principal and funded the rest with a \$815,000 bond anticipation note. In addition to paying off the remainder of the note the Town used the rest of the funds to purchase two dump trucks for the highway department. The note will have a one year maturity and an interest rate of 4.40 percent. It will be due by September 8, 2011.

Note 14 – GASB Pronouncements Issued, But Not Effective Yet

The Governmental Accounting Standards Board (GASB) is the standard setting board for governmental entities. The following are statements which have been approved by GASB, but are not yet effective:

- GASB #54 Fund Balance Reporting and Governmental Fund Type Definitions This statement provides clearer fund balance classifications that can be more consistently applied. This is effective for the year ending June 30, 2011.
- GASB #59 Financial Instruments Omnibus This statement updates and improves
 existing standards regarding financial reporting and disclosure requirements of certain
 financial instruments and external investment pools. This is effective for the year
 ending June 30, 2011.

| and Other Financing Uses - GAAP Basis (Exhibit 4) | | \$ 375,360 | |

Notes to Required Supplementary Information: A formal, legally approved, annual budget is adopted for the General Fund. This budget is adopted on a basis consistent with Generally Accepted Accounting Principles (modified accrual basis) with the following exceptions:

1. The Town does not recognize as income or expenditures payments made for the teacher's retirement by the State of Connecticut on the Town's behalf;

2. The Town recognizes encumbrances payable as an expenditure in the year they were committed;

3. Revenues and expenditure from refunding or renewing long-term debt or issuing lease financing is included in the budget as the net revenue or expenditure expected;

4. General government payroll and the Board of Education's pension contribution are recorded on a cash basis.

* Indicates these funds were over expended

Town of North Stonington, Connecticut Fund Descriptions

Special Revenue Funds:

School Lunch Fund – The school cafeteria programs are run through this fund. Besides the fees charged to students, the revenue comes from the Federal and State reimbursements for free and reduced lunches to low income individuals.

Special Education Grants – This fund is used to account for a number of Federal, State and local educational grants. These grants are applied for by the school and most are monitored by the State and Federal governments.

Inland Wetland Mitigation Fund – This fund is used to account for fees restricted for inland and wetland mitigation.

Open Space Fund – This fund is used to account for fees restricted for open space.

Edmund McGowan Scholarship Fund and Scholarships held by School – These funds have accumulated various memorial and other donations to be used for specific scholarships at the schools.

Pension Trust Funds:

These funds are used to account for various pension and incentive monies the Town is holding as trustee. These Funds are held for the following groups of individuals: Volunteer Fire Fighters; Volunteer Ambulance Workers; General Government; and Board of Education.

Agency Funds:

Student Activity Fund – These funds are being held for various student groups.

Performance Bonds – These funds are being held in trust pending the completion of various development projects.

Bicentennial Committee – These funds are being held for the Bicentennial Committee.

Report On Internal Control Over Financial Reporting And On Compliance And Other Matters Based On An Audit Of Financial Statements Performed In Accordance With Government Auditing Standards

Board of Finance Town of North Stonington, Connecticut North Stonington, Connecticut

We have audited the financial statements of the Town of North Stonington, Connecticut as of and for the year ended June 30, 2010 and have issued our report thereon dated December 01, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the Town of North Stonington, Connecticut's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of North Stonington, Connecticut's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town of North Stonington, Connecticut's internal control over financial reporting.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and others deficiencies that we consider to be significant deficiencies.

Government Auditing Standards Report (Continued)

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items MW-07-2 and MW-08-1 to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of North Stonington, Connecticut's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under <u>Government Auditing Standards</u>.

The Town of North Stonington, Connecticut's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the Town of North Stonington, Connecticut's response and, accordingly, we express no opinion on it.

This report is intended for the information and use of the management, Board of Finance, others within the Town of North Stonington, Connecticut, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report On Compliance With Requirements That Could Have A Direct And Material Effect On Each Major Program And On Internal Control Over Compliance In Accordance With The State Single Audit Act, And On The Schedule Of Expenditures Of State Financial Assistance

Board of Finance Town of North Stonington, Connecticut North Stonington, Connecticut

Compliance

We have audited the Town of North Stonington, Connecticut's compliance with the types of compliance requirements described in the *Office of Policy and Management Compliance Supplement* that could have a direct and material effect on each of the Town of North Stonington, Connecticut's major state programs for the year ended June 30, 2010. The major state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major state programs is the responsibility of the Town of North Stonington, Connecticut's management. Our responsibility is to express an opinion on the Town of North Stonington, Connecticut's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States; and the State Single Audit Act (C.G.S. Sections 4-230 to 4-236). Those standards and the State Single Audit Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Town of North Stonington, Connecticut's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Town of North Stonington, Connecticut's compliance with those requirements.

In our opinion, the Town of North Stonington, Connecticut complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2010.

State Single Audit Report (Continued)

<u>Internal Control over Compliance</u>

Management of the Town of North Stonington, Connecticut is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to state programs. In planning and performing our audit, we considered the Town of North Stonington, Connecticut's internal control over compliance with requirements that could have a direct and material effect on a major state program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the State Single Audit Act, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of North Stonington, Connecticut's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely manner.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of State Financial Assistance

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of North Stonington, Connecticut as of and for the year ended June 30, 2010, and have issued our report thereon dated December 01, 2010. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the Town of North Stonington, Connecticut's basic financial statements. The accompanying schedule of expenditures of state financial assistance is presented for purposes of additional analysis as required by the State Single Audit Act and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

State Single Audit Report (Continued)

Town of North Stonington, Connecticut Notes to the Schedule of Expenditures of State Financial Assistance For the Year Ended June 30, 2010

Various departments and agencies of the State of Connecticut have provided financial assistance to the Town of North Stonington, Connecticut through grants and other authorizations in accordance with the General Statutes of the State of Connecticut. These financial assistance programs fund several programs including: education, general government, public works, and public safety.

1. Summary of Significant Accounting Policies

The accounting policies of the Town of North Stonington, Connecticut conform to Generally Accepted Accounting Principles as applicable to governmental entities. The following is a summary of the more significant policies relating to the aforementioned grant programs.

A. Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting,* as are the fiduciary fund financial statements, when applicable. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting.* Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Certain revenues associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Schedule of Expenditures of State Financial Assistance, contained in this report, is prepared based on regulations established by the State of Connecticut Office of Policy and Management. In accordance with these regulations (Section 4-236-22), certain grants are not dependent on expenditure activity, and accordingly, are considered to be expended in the fiscal year of receipt. These grant program receipts are reflected in the expenditures column of the Schedule of Expenditures of State Financial Assistance.

I. Summary of Audit Results

A. Financial Statements:

| Type of auditors' report issued: | <u>Unqualified</u> | | | |
|---|---------------------------------|--|--|--|
| Internal control over financial reporting: Material weakness(es) identified? Significant deficiency(ies) identified? Noncompliance material to the financial statements noted? | | | | |
| B. State Financial Assistance: | | | | |
| Internal control over major programs:Material weakness(es) identified?Significant deficiency(ies) identified? | ☐Yes ⊠No ☐Yes ⊠None reported | | | |
| Type of auditors' report issued on compliance for major programs: <u>Unqualified</u> | | | | |
| Any audit findings disclosed that are required to be reported in accordance with Section 4-236-24 of the Regulations to the State Single Audit Act? | ∐Yes ⊠No | | | |

The following schedule reflects the major programs included in the audit:

| State Grantor and Program | State Core-CT Number | Expenditures |

| Town Aid Road | 13033-DOT57131-43459 | \$88,802 |
| Office of Policy and Management: | | |
| Local Capital Improvement Program | 12050-OPM20600-40254 | \$167,125 |
| | | |
| Dollar threshold used to distinguish between t | type A and type B programs: | \$100,000 |

II. State Financial Assistance Findings And Questioned Costs

No findings or questioned cost are reported relating to State financial assistance programs.

III. Summary Schedule of Prior Audit Findings

MW-07-1 – Documentation of the Components of Internal Control

Condition: The Town of North Stonington, Connecticut has numerous internal controls in place over significant processes and accounts. Not all of these controls are formally documented. It is possible for controls to change over time or not be completely understood by the individuals involved in the processes.

Current Status: The finding has been corrected.

MW-07-2 – Controls over the Period-End Financial Reporting Process

Condition: The audit identified material adjustments to the Town of North Stonington, Connecticut's internally prepared financial reporting. Although these have been subsequently corrected by management, the internal reports presented and used for management decisions were materially misstated.

Current Status: The Town has hired an outside accountant to come in quarterly to review the bookkeeping and management reports.

MW-07-3 - Controls over Tax Collector

Condition: The Town had set up internal control policies over the tax collections. These have changed and eroded over time.

Current Status: The finding has been corrected.

MW-07-5 – Balancing Cash Accounts

Condition: The Board of Education prepares a cash disbursements register and balances the disbursements to the cash account. The Town posts the transactions by batch into their double entry accounting system. The Town does not balance their own postings to the cash account. As a result postings were hundreds of thousands of dollars misstated and not noted by the Town.

Current Status: The finding has been corrected.

MW-08-1 – Entity Level Controls

Condition: Internal controls are a coordinated set of policies and procedures that management uses to achieve their objectives and meet their fundamental responsibilities for effectiveness, efficiency, compliance and financial reporting. The literature recognizes five sections of internal control published by the Committee of Sponsoring Organizations of the Treadway Commission (COSO Report) in Internal Control – Internal Control – Integrated Framework. These five interrelated components include:

- Control Environment A favorable control environment exists when management
 is knowledgeable about controls (entity wide and specific), is committed to
 establishing controls and communicates its support for internal controls to all
 individuals involved.
- Risk Assessment This involves management's continual identification and assessment of the potential risks that might prevent management from fulfilling its responsibilities and achieving its objectives.

- Information and Communication Systems These are the systems used to assure that appropriate individuals have timely and accurate information to carry out their responsibilities.
- Control Activities These are management's response to the risks identified. These are the specific policies and procedures that are put in place to alert management of undesired actions in a timely manner.
- *Monitoring* There is a responsibility of management to follow up on the controls that have been put in place to assure that they continue to function and function properly, effectively and efficiently.

The Town of North Stonington, Connecticut does not have a framework established to deal with each of the interrelated entity level controls over and above the specific control policies and procedures that have been developed.

Current Status: Before this could begin, the Town had to prepare the procedures manual. They will now be reviewing the procedures in each department, assessing risk and inserting procedures to make it easy to monitor the procedures on an ongoing basis.

MW-08-2 - Controls over Payroll

Condition: The General Government uses a payroll service. The bookkeeper gathers the approved time cards from the supervisor. The bookkeeper re-tallies the time cards and submits the information to the payroll company, receives back the signed checks and the payroll register, and distributes the pay checks. No one else reviews or approves the payroll or payroll calculations after the supervisor approves the time cards.

Current Status: The finding has been corrected.

MW-08-3 – Fixed Asset Reporting

Condition: The Town does not keep an updated and balanced fixed asset report to calculate the depreciation by program.

Current Status: The finding has been corrected.

SD-07-1 – Internal Control over Financial Reporting

Condition: The Town of North Stonington, Connecticut presents financial statements in accordance with Generally Accepted Accounting Principles (GAAP). The Town of North Stonington, Connecticut does not collectively possess the resources, skills and knowledge to prepare their own financial statements including footnote disclosures in accordance with GAAP.

Current Status: The finding has been corrected.

CERTIFIED PUBLIC ACCOUNTANTS + ADVISORS

Report On Compliance With Requirements That Could Have A Direct And Material Effect On Each Major Program And On Internal Control

Over Compliance In Accordance With OMB Circular A-133, And On The Schedule Of Expenditures Of Federal Financial Assistance

Board of Finance Town of North Stonington, Connecticut North Stonington, Connecticut

Compliance

We have audited the Town of North Stonington, Connecticut's compliance of the with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on each of the Town of North Stonington, Connecticut's major federal programs for the year ended June 30, 2010. The Town of North Stonington, Connecticut's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements referred to above is the responsibility of the Town of North Stonington, Connecticut's management. Our responsibility is to express an opinion on the Town of North Stonington, Connecticut's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States; and OMB <u>Circular A-133</u>, <u>Audits of States</u>, <u>Local Governments</u>, <u>and Non-Profit Organizations</u>. Those standards and OMB <u>Circular A-133</u> require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town of North Stonington, Connecticut's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Town of North Stonington, Connecticut's compliance with those requirements.

In our opinion, the Town of North Stonington, Connecticut complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

Federal Single Audit Report (Continued)

Internal Control over Compliance

The management of the Town of North Stonington, Connecticut is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit, we considered the Town of North Stonington, Connecticut's internal control over compliance to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of North Stonington, Connecticut's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses in the internal control over compliance. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Financial Awards

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of North Stonington, Connecticut, as of and for the year ended June 30, 2010, and have issued our report thereon dated December 01, 2010. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the Town of North Stonington, Connecticut's basic financial statements. The accompanying Schedule of Expenditures of Federal Financial Assistance is presented for purposes of additional analysis as required by OMB <u>Circular A-133</u> and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, the Board of Finance, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Town of North Stonington, Connecticut Notes to the Schedule of Expenditures of Federal Financial Assistance For the Year Ended June 30, 2010

1. Summary of Significant Accounting Policies

The accounting policies of the Town of North Stonington, Connecticut conform to Generally Accepted Accounting Principles as applicable to governmental entities. The following is a summary of the more significant policies relating to the aforementioned grant programs.

A. Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements, when applicable. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Certain revenues associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

B. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Financial Assistance includes the federal grant activity of the Town of North Stonington, Connecticut and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, <u>Audits of States, Local Governments, and Non-Profit Organization</u>. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

I. Summary of Audit Results

CFDA #:

CFDA #:

| A. Financial Statements: | |
|--|---------------------------------|
| Type of auditors' report issued: Internal control over financial reporting: • Material weakness(es) identified? • Significant deficiency(ies) identified? Noncompliance material to the financial statements noted? | Unqualified |

II. Federal Financial Assistance Findings And Questioned Costs

No findings or questioned cost are reported relating to Federal financial assistance programs.

Name: Title I

Threshold used for distinguishing between Type A and Type B programs: \$300,000

III. Summary Schedule of Prior Audit Findings

84.010/84.389

84.394/84.397

Qualified as a low risk auditee:

MW-07-1 – Documentation of the Components of Internal Control

Condition: The Town of North Stonington, Connecticut has numerous internal controls in place over significant processes and accounts. Not all of these controls are formally documented. It is possible for controls to change over time or not be completely understood by the individuals involved in the processes.

Name: American Recovery and Reinvestment: SFSF

□ Yes ⊠ No

Current Status: The finding has been corrected.

MW-07-2 – Controls over the Period-End Financial Reporting Process

Condition: The audit identified material adjustments to the Town of North Stonington, Connecticut's internally prepared financial reporting. Although these have been subsequently corrected by management, the internal reports presented and used for management decisions were materially misstated.

Current Status: The Town has hired an outside accountant to come in quarterly to review the bookkeeping and management reports.

MW-07-3 - Controls over Tax Collector

Condition: The Town had set up internal control policies over the tax collections. These have changed and eroded over time.

Current Status: The finding has been corrected.

MW-07-5 – Balancing Cash Accounts

Condition: The Board of Education prepares a cash disbursements register and balances the disbursements to the cash account. The Town posts the transactions by batch into their double entry accounting system. The Town does not balance their own postings to the cash account. As a result postings were hundreds of thousands of dollars misstated and not noted by the Town.

Current Status: The finding has been corrected.

MW-08-1 – Entity Level Controls

Condition: Internal controls are a coordinated set of policies and procedures that management uses to achieve their objectives and meet their fundamental responsibilities for effectiveness, efficiency, compliance and financial reporting. The literature recognizes five sections of internal control published by the Committee of Sponsoring Organizations of the Treadway Commission (COSO Report) in Internal Control – Integrated Framework. These five interrelated components include:

- Control Environment A favorable control environment exists when management
 is knowledgeable about controls (entity wide and specific), is committed to
 establishing controls and communicates its support for internal controls to all
 individuals involved.
- Risk Assessment This involves management's continual identification and assessment of the potential risks that might prevent management from fulfilling its responsibilities and achieving its objectives.

- Information and Communication Systems These are the systems used to assure that appropriate individuals have timely and accurate information to carry out their responsibilities.
- Control Activities These are management's response to the risks identified. These are the specific policies and procedures that are put in place to alert management of undesired actions in a timely manner.
- *Monitoring* There is a responsibility of management to follow up on the controls that have been put in place to assure that they continue to function and function properly, effectively and efficiently.

The Town of North Stonington, Connecticut does not have a framework established to deal with each of the interrelated entity level controls over and above the specific control policies and procedures that have been developed.

Current Status: Before this could begin, the Town had to prepare the procedures manual. They will now be reviewing the procedures in each department, assessing risk and inserting procedures to make it easy to monitor the procedures on an ongoing basis.

MW-08-2 - Controls over Payroll

Condition: The General Government uses a payroll service. The bookkeeper gathers the approved time cards from the supervisor. The bookkeeper re-tallies the time cards and submits the information to the payroll company, receives back the signed checks and the payroll register, and distributes the pay checks. No one else reviews or approves the payroll or payroll calculations after the supervisor approves the time cards.

Current Status: The finding has been corrected.

MW-08-3 – Fixed Asset Reporting

Condition: The Town does not keep an updated and balanced fixed asset report to calculate the depreciation by program.

Current Status: The finding has been corrected.

SD-07-1 – Internal Control over Financial Reporting

Condition: The Town of North Stonington, Connecticut presents financial statements in accordance with Generally Accepted Accounting Principles (GAAP). The Town of North Stonington, Connecticut does not collectively possess the resources, skills and knowledge to prepare their own financial statements including footnote disclosures in accordance with GAAP.

Current Status: The finding has been corrected.
