

## **NEW TOWN HALL**

### **40 MAIN STREET**

A referendum in 1978, that won by only seven votes, resulted in the renovation of an existing brick auto garage into offices for town use. The garage, constructed in the 1950s by Noah Carocari, had replaced an earlier structure that burned. The original building on the site was a stable that belonged to Dudley R Wheeler. His house, which was located across the street, burned on February 13, 1938. That site is now the town parking lot.
