Minor accident where truck siren was damaged

Insurance:

Still working on overage issue

Communications:

Mike Urgo sent an email to read at meeting.

Hi guys,

I am not going to come to the company meeting tonight as I don't want anyone to misconstrue my intentions as political in anyway. My only purpose had been to thank the company for coming in under budget and also to thank them for the collaboration on the leases. Please pass this along to the company for me and I'll plan to come to a meeting after the election should I still be in office.

Have a great day!

Mike
