Appendix D

SITE PLAN CHECK SHEET

Standard Elements of the Site Plan. As indicated in Section 1302 of the Zoning Regulations, the following information is usually required with any application for Site Plan approval. However, the Commission may approve or modify and approve a Site Plan application that does not include all such information if it finds that such information is not needed to assure that the proposed use or uses will be in compliance with the substantive provisions of these Regulations. The Commission may also require additional information if necessary to determine compliance. For modifications to Site Plans produced prior to 1996, additional boundary information may be required.

The following information shall be provided on a 24 x 36 inch plan, with scale of 1" = 40'. Applicant shall submit three full size plans. Ten additional copies of the Site Plan shall be provided on an 11 x 17 (reduced copy) plan.

A. Property and applicant information:
   1. address of the property;
   2. name and address of owner of record; and
   3. name of and address of the applicant.

B. Names and addresses of current owners of property within 100 feet of the parcel as shown in the Assessor's records, including properties across from any street/road, river, and/or municipal boundary, and properties sharing a driveway with the subject property.

C. Zone of site and of all property within 500 feet.

D. Copies of the current tax map, property card, and deed associated with the property.

E. North arrow (if other than North American Datum (NAD) 83 the applicant shall state why and provide standard for alternative), scale, name(s) of person(s) preparing plan, date of drawing, and any revision dates with description of revisions (revision dates shall appear on each plan sheet that has been revised and shall include a description of the revisions).

F. Property boundaries (Class A-2 with dimensions, angles, and area of the parcel and/or parcels subject to the application).

G. Existing and proposed street and lot lines and the dimensions of all yards and buildable area, per Chapter 4 of the Regulations.

H. A zoning compliance chart or table that indicates the dimensional and use requirements for the property in the Zone and how the proposed structure and uses will comply with the requirements.

I. Existing and proposed contour lines. For all areas of the parcel within 100 feet of any proposed work (including construction, excavation, filling, grading, and clearing of vegetation), the contour interval shall be no greater than two (2) feet (T-2 or T-3 accuracy). Topography taken from USGS Quadrangle interpolation shall not be acceptable for such areas, but may be used for other portions of the site. The Commission may require the applicant to submit
Appendix D

design drawing(s), including cross sections and elevation, of all proposed activity. Additional spot elevations may be required where necessary to indicate drainage patterns.

J. Locations and specifications of all existing and proposed structures and uses including, but not limited to, buildings, stone walls, fences, sidewalks, driveways, parking and loading areas, exterior storage areas, signs, abutting streets, utility structures, and hydrants. Existing and proposed buildings and structures shall detail the number of bedrooms in each and/or the total number of bathrooms. Renderings of any proposed building, specifying siding materials, should be provided; front, side, and rear elevations shall be shown.

K. Locations and descriptions of water supply wells or other water sources and of all sewage disposal facilities, together with percolation and test pit data.

L. Location of proposed subsurface sewage disposal systems and reserve fields, showing distances to adjacent land, distances from all wells within 200 feet (on or off the tract), and distance from any manure handling systems.

M. Locations of existing and proposed drainage facilities on the site and those off-site that may be affected by the proposed activity, as well as any points of collected drainage discharges (i.e., discharges other than natural sheet flow) onto or off of the site.

N. Location of wetlands, watercourses and wetlands buffers, with the live signature of the soil scientist who identified such features. All wetlands shall be field located. In addition to the wetlands delineation all soil types shall be shown per “Soil Survey of New London County, Connecticut.”

O. Identification of surface and groundwater resources on and around the site, including any public or private domestic users of such waters; the depth to groundwater and description of adjacent soils, and an evaluation of the impact of the proposal on existing and potential surface and ground drinking water supplies. The Commission may require additional information necessary to ensure protection of water resources, and may require that the report be prepared by a hydrogeologist or other qualified professional.

P. Identification of any chemicals or potential contaminants to be used, stored or produced on site or discharged on or off the site, and a detailed description of methods and procedures by which any chemicals or potential contaminants on site will be stored, used, applied, discharged, and disposed.

Q. All soil types per “Soil Survey of New London County, Connecticut.” Provide signature block for the soil scientist certifying that all wetlands and watercourses have been delineated or that there are none on the property shall be placed on the plans.

R. Any existing or proposed easements and deed restrictions affecting the property including Conservation and/or Open Space areas including any areas/easements required by the Inland Wetlands Commission.

S. Areas within 100 year flood hazard areas as delineated by the Federal Emergency Management Agency (FEMA) and as shown on the most recently amended maps prepared by FEMA must be shown with a note saying “Limits of Flood Hazard Zone are approximate and are scaled from the...
Appendix D

Federal Flood Hazard maps." When a lot does not include land within the 100-year flood hazard area, the map shall include the following notation: "This lot does not include land areas within the Federal Emergency Management Agency's 100-year flood hazard area."

T. Any boundaries of any sub-regional watersheds that lie within the site, as shown on maps available from the Natural Resources Center of the Department of Energy and Environmental Protection.

U. A landscape plan in conformance with Section 1103 showing the planting, location and species to be used, the ground cover and surface treatments proposed, and identification of the types and location of existing vegetation to remain in place on the site. The Commission shall require such plans to be prepared by a professional landscape architect (e.g., American Association of Landscape Architects, ASLA).

V. Sight line information at proposed driveway cut(s), and statement that plans have either been submitted to DOT for review or that DOT review is not required.

W. Lighting Plan in conformance with Section 1110.

X. All wooded areas, specimen trees (exceeding 30 inches diameter at breast height (dbh), five feet above the ground), rock outcroppings (greater than 200 square feet surface area) and any unique and fragile natural features.

Y. The general location of any endangered special and/or species of special concern per DEEP NDDB Map.

Z. Any stonewalls, monuments, and other structures having historical significance.

AA. Any archaeological sites including but not limited to those known to the State Archaeologist's Office. The Commission may require the Applicant to submit a report from the State Archaeologist's Office.

BB. Any historic buildings and sites listed on the National Register of Historic Places.

CC. If required by the Commission, evidence of submission, review and acceptability of plans to other State and Local regulatory agencies with jurisdiction over some or all of the proposed structures and/or uses including but not limited to the following permits: Inland/Wetland permits, Dept. of Transportation Encroachment Permit and/or State Traffic Commission permit, DEEP, Water Diversion Permit Floodway Encroachment Permit.

DD. Any other information deemed necessary by the Commission to determine compliance with these Regulations. The Commission may require evaluation reports by Commission-approved independent professionals and other experts, including and not limited to: traffic engineers, hydrologists, soil scientists, geologists.
